Measles!!! We have been notified by Public Health England in the rise of confirmed measles cases in the Bristol area. Measles can be serious, especially for people whose immune system is not working normally. The best way to prevent measles is by getting the MMR (Measles, Mumps and Rubella) vaccination.

Signs to look for:

- Cold-like symptoms
- Sore, red eyes that may be sensitive to light
- High temperature (fever), which can reach 40c
- Small red spots with bluish-white centres.
- Generally feeling unwell

As part of our Healthy Eating we have attached an image to help families get a balance of healthier and more sustainable food. It shows how much of what you eat overall should come from each food group.
